25X1 25X1 In the spring of 1949, the owner of the farm joined Razctaajs kolkhoz. Before joining the kolkhoz, the owner of the farm had 17 hectares of fertile land and kept six to seven cows and two horses, but in the kolkhoz he had only $\frac{1}{2}$ hectare of land for his own purposes and one cow. He also had some hogs, sheep, and poultry, but there was not enough food even for the cow, especially in the fall of 1950, due to the drought. For the one-half hectare of land the kolkhoznik had to deliver to the State 180 kg potatoes, 40 kg of meat for each hog, 300 liters of milk from the cow, 50 eggs from each hen, and wool from the sheep. In addition to these requirements, a kolkhoznik had to pay some taxes in cash.

25X1 Also, taxes had to be paid for each fruit tree according to the number possessed by a kolkhoznik.
